

ClearGuard™ Security Door

ClearGuard™ may look like a flyscreen, but it is actually high tensile marine grade 316 stainless steel woven into a fine mesh. The strength and composition of the mesh removes the need for security grilles on your doors and windows.

ClearGuard™ provides a welcoming entrance for your visitors, without compromising the appearance of your home or feature door. It gives you a clear,

unobstructed view of your garden and the outdoors and lets the cool breezes flow through your home.

ClearGuard™ is assembled using a unique, patented pressure process that eliminates the need for screws, rivets, pins or snap ins. The process ensures that no metal surfaces come into contact with each other, eliminating the possibility of corrosion.

A special pressure fitting process of placing the stainless steel mesh into the frame removes the need for unsightly mid rails.

ClearGuard™ Security Window Screen

ClearGuard™ is also ideal for providing security screens for your windows. This is an extra layer of protection for you and your family.

Warranty Information for ClearGuard™

Where a fault in the Amplimesh™ ClearGuard™ product occurs within ten years of installation and is shown to be caused by the manufacture or materials, the product will be repaired or replaced at no cost to the customer.

Warranty claims need to be made with the Amplimesh™ dealer that supplied the product.

Claims under the warranty are only valid if:

- The fault occurs within ten years of installation
- All servicing of the product has been carried out by an authorised Amplimesh™ dealer or their representative
- No modifications have been made to the original ClearGuard™ product
- The care and maintenance instructions have been followed (available on the warranty card provided by the Amplimesh™ dealer)
- The product has not been damaged by fire, accident or abuse

The decision to repair or replace the product is at the dealer's discretion and will be made after inspection by the dealer.

Items not covered under this warranty include locks, handles, cylinders, hinges and door closers. These are covered separately by manufacturers' warranties. Please ask your authorised Amplimesh™ dealer for further information.
